

MICRONEEDLING & PRP

MICRONEEDLING & PRP

Reveal healthier, glowing skin with microneedling. This collagen-boosting treatment helps improve texture, fine lines, wrinkles and scars. Includes a Biocellulose Restorative Mask

PRP THERAPY FOR HAIR LOSS

Platelet-Rich Plasma (PRP) therapy for hair loss is a three-step treatment that involves drawing a patient's blood, processing it to concentrate the growth factors, and then injecting it into the scalp. A series of at least six sessions, spaced about one month apart, is typically recommended for best results.

ADVANCED MICRONEEDLING WITH TOSKANI MEDICAL-GRADE SKINCARE

Our advanced microneedling treatments are elevated with professional-grade Toskani products to deliver targeted skin rejuvenation and visible results. This minimally invasive procedure creates controlled micro-channels in the skin to stimulate collagen and elastin production while allowing potent Toskani serums to deeply penetrate for enhanced efficacy.

With a strong foundation in scientific innovation and clinically proven results in regenerative medicine at a cellular level, TOSKANI Med offers comprehensive treatment protocols that restore, regenerate, and repair the skin. Our solutions address a wide range of concerns, including:

Hydration & Collagen Stimulation

Firming & Anti-Aging

Acne & Acne Scarring

Melasma & Hyperpigmentation

Hair Restoration & Scalp Health

Rosacea

Pre-Laser Treatment (to maximize results) and much more!
